

Edward T. Connolly

Vice President, Heavy Oil
Husky Oil Operations Limited

Responsible for growing the management and expansion of Husky's heavy oil portfolio.

Career History and Key Accomplishments

Mr. Connolly joined Husky as Vice President of Heavy Oil in 2006, bringing extensive experience in managing the drilling and completions of wells and tie-ins operations, and constructing oil and gas processing facilities. He has drilled wells in the Canadian Rocky Mountains, offshore Newfoundland and Labrador, and Indonesia, and in Algeria.

Prior to his appointment at Husky, Mr. Connolly was Manager of Drilling, Well Completions and Facilities Construction with Talisman Energy Canada and Facilities Construction Project Manager with BP Canada Ltd. He has served in production and reservoir engineering operations and production testing activities with Gulf Canada Resources and Tharin Petroleum Data.

Education

Mr. Connolly has a Bachelor of Science in Chemical Engineering from the University of Tulsa and a diploma in gas technology from the Northern Alberta Institute of Technology.

Professional Memberships, Associations and Designations

Mr. Connolly is a member of the Association of Professional Engineers, Geologists and Geophysicists of Alberta.
