White Rose Extension Project - Expression of Interest (EOI) / Prequalification
Provision of Electrical and Pump Services - Reference No. 8.34.1.100

Husky Energy Inc. (Husky), operator of the White Rose Field and satellite extensions, is seeking prequalification responses from interested companies/consortia/joint ventures for the supply of Electrical and Pump services for the Argentia Graving Dock, located in Argentia, Newfoundland.

**General Requirements**

Interested companies/groups must be qualified to conduct the work as outlined in the Scope of Work and are asked to demonstrate their capabilities and experience via a formal response to the Prequalification Questionnaire. The Prequalification Questionnaire is largely based on Husky Operational Integrity Management System (HOIMS) and contains detailed questions regarding your company’s technical, HSE-Q and commercial capabilities.

To demonstrate capabilities and experience, interested companies/groups must submit documented evidence of delivering and supplying similar packages in strict accordance with relevant industry regulations, codes and standards and statutory authorities.

**Scope of Work**

Husky will require the services of qualified and experienced contractors for the provision of Electrical and Pump services at the Argentia Graving Dock.

The Contractor undertakes to support maintenance of the pumps and electrical equipment that consists of two parts:

1. Management activities that cover contract management/planning, facility management, response time and support expectations, strategy procedure development;

2. Supply of resources, specialist tools and materials required to carry out the Scope of Work.

The Contractor shall provide electrical and pump services, which includes, but is not limited to:

- Maintain, repair and replace, as needed, all electrical provisions, including programmable logic controller/supervisory control and data acquisition (PLC/SCADA) systems required to operate the site;

- Maintain, repair and replace, as needed, all construction dewatering/surface water drainage provisions, such as pumps and level sensors (installation and removal by others);

- Preventative and emergency maintenance for three (3) standby power generators;

- Power distribution and lighting replacement;

- Electrical repair to one (1) office trailer and one (1) wash car (heat, lights, etc.).

Husky strongly supports providing opportunities to Canadian and, in particular Newfoundland and Labrador companies and individuals, on a commercially competitive basis. Pre-qualified companies will be required to complete a Canada/Newfoundland and Labrador Benefits Questionnaire at the bid stage. Husky also encourages the participation of members of designated groups (women; Aboriginal peoples; persons with disabilities; and members of visible minorities) and corporations or cooperatives owned by them, in the supply of goods and services.
Please provide one (1) hard copy and one (1) electronic copy of your formal response no later than 3:00 P.M. NST, 10 February 2015 to the address as shown below:

Husky Energy Inc.
