1.0 Introduction

The following represents Husky Energy’s (Husky’s) Canada-Newfoundland and Labrador Benefits Report for the quarter ending March 31, 2006, as required under the Conditions set out in Decision 2001.01 for the White Rose Development Project.

This report provides a summary of progress/activities related to Husky Energy’s East Coast Operations and includes activities of its major sub-contractors as well.

2.0 Highlights for the Period

- The White Rose Project came in on schedule and on budget
- Overall Canada / Newfoundland content for the period of January 1, 2006 to March 31, 2006 was 93%
- Approximately 8 million barrels of oil were produced as of March 31 at an average production rate of 60,000 bbls/ day.
- The Rowan Gorilla was contracted to drill up to 4 wells during the upcoming drilling season.
- Total employment in East Coast Operations exceeded 990
- The Husky annual diversity workshop was held on March 8, 2006
3.0 Employment Summary

As of March 31, 2006, a total of 990 people were employed on White Rose. This includes people employed with Husky and its contractors. Of this total 809 or 81.7% were residents of Newfoundland and Labrador when hired, while another 123 or 12.3% were residents of other regions of Canada at the time of hire. Over 98% of positions were located in Newfoundland and Labrador as at March 31, 2006 and 543 of these positions were in the offshore.
